## Course Outline

UCSF is pleased to present our workshop on Virtual Colonoscopy. This rapidly evolving technology will be explored in a program with individualized, hands-on workstation training and didactic instruction by Dr. Judy Yee, a leader in this imaging modality.

This workshop will present, to both academic and practicing radiologists, the fundamentals and latest techniques of non-invasive colon cancer screening. Some of the more recent developments discussed will include the evolution of CTC technique using new oral tagging agents, strategies for reducing radiation dosage, and new insights to the development of colon cancer, such as the importance and recognition of serrated polyps.

Incorporated into the workshop curriculum, attendees will be instructed to the standard required and fulfill the current recommendations as established by the American College of Radiology. Attendees will review 50 proven virtual colonoscopy cases as per ACR guidelines.

## Objectives

At the completion of this course, the attendee should be able to:

1. Perform, interpret and report a virtual colonoscopy exam in a time-efficient manner;
2. Obtain optimal colonic distention and cleansing for a maximally diagnostic virtual colonoscopy;
3. Recognize the appearance of questionable findings and be able to use specific strategies to avoid common and uncommon pitfalls.

## Registration

Pre-registration is required as enrollment in this course is limited to 18 registrants.

Tuition: \$2,500.

### **Registration includes:**

- Thursday afternoon workstation training
- Friday full-day and Saturday morning class instruction at individual workstations
- Friday breakfast & lunch and Saturday breakfast provided
- course syllabus and reference articles
- Dr. Yee's book "Virtual Colonoscopy"

Registration can be made online, by phone or using the form on the last page.

## Accommodations

<https://radiology.ucsf.edu/cme/upcoming>

For detailed information on hotels and rates in the Union Square / Market Street area just north of China Basin, visit the webpage above, find the course dates, and click on the Course Title link.

Please make your reservation early, as hotel rooms in San Francisco are at a premium. These hotels are a 20-25 minute walk from the China Basin Research Center, and are easily accessible by streetcar, taxi or walking.

The China Basin Research Center is next to AT&T Park / Giants Stadium.

## Getting to the Course

For details on SF city transportation routes and fares, visit: [www.sfmta.com](http://www.sfmta.com)

For China Basin maps/directions: <https://radiology.ucsf.edu/locations/china-basin>

*Note: the CB free parking listed is not for course attendees, it is for patients only.*

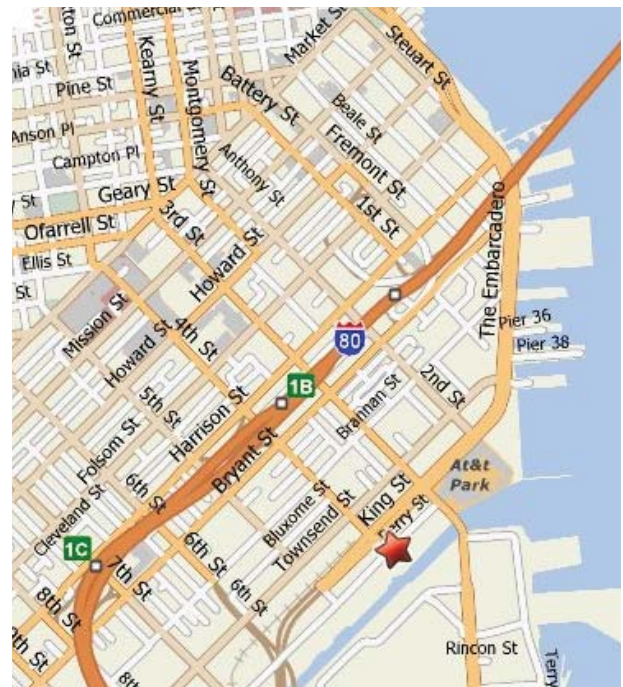

The workshop is held at the UCSF China Basin Research Center at 185 Berry Street (at Fourth Street), Lobby 6, Third Floor. The Center is located on the southeast side of the city, next to the baseball stadium, and one block from the CalTrain station.

**Attendees staying at one of the downtown hotels** should note that the China Basin Center is approximately a 20 minute walk from Market Street, and is on the N-Judah streetcar line, which is accessible from any of the four underground Market Street Muni stations. The N-Judah stops one short block from the China Basin Center.

**For those local to the bay area** who will be taking BART, the Montgomery and Powell stations are closest. For those who will be driving, the entrance to Lobby 6 of China Basin Center is at the corner of Fourth and Berry Streets. Stockton Street (downtown SF) travels one-way south, and becomes Fourth Street after crossing Market.

24 Hour Parking:

Beacon 415-546-7755 - Safeway parking lot, 4th & Townsend Streets  
IMpark 415-227-0114 - Giants Stadium parking, 3rd & Channel Streets
