# Body Imaging on Kona

January 20-25, 2019

The Fairmont Orchid - Big Island of Hawaii

**UCSF** Department of Radiology  
and Biomedical Imaging  
<https://radiology.ucsf.edu/cme>

## Course Outline

This five-day course is designed for both the general and specialized radiologist in practice, and will provide an update on clinically relevant topics in chest, abdominal and ob-gyn imaging.

Practical applications of body imaging will be emphasized throughout, with interpretation tips for both routine and emerging applications. Areas of focus will include the female pelvis and early pregnancy, the male pelvis, CT/MR of the liver and other gastrointestinal conditions, and a thorough review of the thoracic cavity covering standard pulmonary protocols.

Sessions will end with an opportunity for question and answer or discussion.

## Self-Assessment (SAM) Credits

This course will offer 22.5 Self-Assessment credits (pending approval and subject to change): 8.25 in Gastrointestinal, 3.25 in Genitourinary, 3.25 in ObGyn/US, and 7.75 in Thoracic.

As of January 1, 2013, updated MOC Part 2 requirements: 75 CME credits every three years, at least 25 of which must be self-assessment activities. For more information: [www.theabr.org/moc-dr-comp2](http://www.theabr.org/moc-dr-comp2)

## Course Objectives

At the completion of this course, the attendee should be able to:

1. Diagnose common causes of acute pelvic pain in non-pregnant women;
2. Recognize the appearance of ectopic pregnancy;
3. Utilize ultrasound to identify findings suggestive and definitive of pregnancy failure in the first trimester;
4. Differentiate common solitary liver masses;
5. Describe the proper management of a renal incidentaloma;
6. Evaluate the small and large bowel in patients with abdominal pain;
7. Diagnose common and atypical pancreatic masses;
8. Apply updated guidelines for the diagnosis and management of lung nodules and lung cancer;
9. Recognize typical and atypical appearance of thoracic emergencies including pulmonary embolism and acute aortic syndromes;
10. Differentiate pathologic conditions from benign incidentalomas and mimics in the lungs, heart and mediastinum;
11. Apply standard terminology to improve description and classification of interstitial lung disease, small airways disease and bronchiectasis on HCRT.

Orchid Grounds and Beach Area

## Resort Highlights

- 36-hole Francis H. Brown coastal golf course
- Spa Without Walls with oceanside cabanas and massage services
- indoor spa treatments and sauna
- 24/7 fitness center access
- children's dining menus; and full- & half- day activity programs
- plexiplave tennis courts

At the Orchid, an ambience of comfort and luxury has been adapted to the natural surroundings and beauty of the island. Among the many resort features that guests can enjoy are plexipave tennis courts (including a stadium court); a ten-thousand square-foot freshwater swimming pool and surrounding whirlpools; and a protected white sand lagoon. Activities include creative wellness programs, basketball, poolside ping-pong, beach volleyball, and other water activities including outrigger canoes.

Guests may start off their mornings with a tennis clinic, power walk and stretch, low-impact aerobic conditioning, or even a snorkel cruise. The 36-hole Francis H. I'i Brown Golf Course is both challenging and spectacular, as it runs along ancient lava flows, native landmarks and the ocean coastline. The Spa Without Walls offers a variety of spa and massage treatments in private, ocean-side cabanas. The Fitness Center is accessible 24/7.

The Orchid's Keiki Aloha (children's program) utilizes the hotel's oceanside location and enables its young guests to learn more about Hawaii and share in the aloha spirit. Children ages five through twelve (who are staying with their parents at the hotel) can participate in a wide range of complimentary activities, including Hawaiian storytelling, hula lessons, coconut-leaf weaving and other island arts & crafts. Prices vary with half-day or full-day programs. The resort also offers a children's menu (ages twelve and under) in all dining rooms.

## The Big Island of Hawaii

The Big Island is the birthplace of King Kamehameha 1, the leader who united all of the Hawaiian islands by 1810. The Big Island is the anchor of the island chain and home of Madame Pele, the fire goddess of volcanoes; therefore the color ascribed to the Big Island is red. The Island of Hawaii is the largest and youngest island in the Hawaiian chain, and with the current volcanic activity, the Big Island is still growing.

The sunny and dry west side of the island is referred to as Kona, and the transformation of its shoreline by volcanic eruptions just two-hundred years ago is still evident. The misty east side of the island is referred to as Hilo -- which is a prime growing area for flowers, plants and vegetation, includes many waterfalls, and is home to Hawaii Volcanoes National Park.

The Big Island has one of the world's most active volcanoes (Kilauea), the tallest sea mountain in the world at more than 33,000 feet (Mauna Kea), and the most massive mountain in the world (Mauna Loa). Hawaii's varying and dramatic climate zones generate a world of environments on one island, including lush rain forests, volcanic deserts, snow-capped mountaintops and beautiful black sand beaches.
