Breast Imaging Update

February 26 - March 3, 2023

The Fairmont Orchid - Big Island of Hawaii

UCSF Department of Radiology
and Biomedical Imaging
<https://radiology.ucsf.edu/cme>

Course Outline

This breast imaging course is designed for both the clinical radiologist who specializes in breast imaging and the radiologist who has general diagnostic clinical duties. A practical approach will be emphasized, providing an overview and update on clinically relevant topics in breast imaging.

The course will highlight recent developments, with a strong focus on the use of multimodality imaging and intervention (mammography with tomosynthesis, ultrasound and MRI).

Daily Faculty Panel with Questions & Discussion

There will be daily interactive panel question and discussion sessions to allow attendees to ask questions. Two small group workshops will focus on interpretation and diagnosis of challenging cases using various imaging methods, with the small group setting also allowing for direct discussion with faculty.

This course also fulfills the continuing medical education requirement for MQSA in breast imaging.

Course Objectives

At the completion of this course, the attendee should be able to:

1. Appropriately apply and utilize BI-RADS.
2. Develop a skillful and practical approach to performing and interpreting mammography with tomosynthesis, breast US and breast MRI.
3. Facilitate compliance with reporting guidelines and management of patient follow-up in breast imaging.

Accreditation

The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

UCSF designates this live activity for a maximum of **25.5 AMA PRA Category 1 Credits™**.

Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The total credits are inclusive of 6.25 in MR, 5.0 in US, 6.0 in Digital Mammography, 2.5 in Stereotactic Biopsy, and 3.5 in Tomosynthesis. Registrants will review 20 mammography cases.

This educational activity meets the requirement under California State Assembly Bill 1195, continuing education and cultural and linguistic competency.

Resort Highlights

- 36-hole Francis H. Brown coastal golf course
- Spa Without Walls with oceanside cabanas and massage services
- indoor spa treatments and sauna
- 24/7 fitness center access
- plexiplave tennis courts

At the Orchid, an ambience of comfort and luxury has been adapted to the natural surroundings and beauty of the island. Among the many resort features that guests can enjoy are plexipave tennis courts (including a stadium court); a ten-thousand square-foot freshwater swimming pool and surrounding whirlpools; and a protected white sand lagoon. Activities include creative wellness programs, basketball, poolside ping-pong, beach volleyball, and other water activities including outrigger canoes.

Guests may start off their mornings with a tennis clinic, power walk and stretch, low-impact aerobic conditioning, or even a snorkel cruise. The 36-hole Francis H. Brown Golf Course is both challenging and spectacular, as it runs along ancient lava flows, native landmarks and the ocean coastline. The Spa Without Walls offers a variety of spa and massage treatments in private, ocean-side cabanas. The Fitness Center is accessible 24/7.

Resort experiences exclusive to our guests include:

- *Stargazing sessions* courtesy of Star Gaze Hawaii, which offer guests a personal guided tour of the constellation (weekly)
- *Storytelling sessions* which share the legends and lore unique to the Island of Hawaii (weekly)
- *Hui Holokai Beach Club Activities* including: hula lessons, petroglyph hikes, turtle talk session, ti leaf lei making, ukulele lessons, coconut palm frond weaving, onsite snorkel equipment rental, and introduction to outrigger canoe paddling.

The Big Island of Hawaii

The Big Island is the birthplace of King Kamehameha 1, the leader who united all of the Hawaiian islands by 1810. The Big Island is the anchor of the island chain and home of Madame Pele, the fire goddess of volcanoes; therefore the color ascribed to the Big Island is red. The Island of Hawaii is the largest and youngest island in the Hawaiian chain, and with the current volcanic activity, the Big Island is still growing.

The sunny and dry west side of the island is referred to as Kona, and the transformation of its shoreline by volcanic eruptions just two-hundred years ago is still evident. The misty east side of the island is referred to as Hilo -- which is a prime growing area for flowers, plants and vegetation, includes many waterfalls, and is home to Hawaii Volcanoes National Park.

The Big Island has one of the world's most active volcanoes (Kilauea), the tallest sea mountain in the world at more than 33,000 feet (Mauna Kea), and the most massive mountain in the world (Mauna Loa). Hawaii's varying and dramatic climate zones generate a world of environments on one island, including lush rain forests, volcanic deserts, snow-capped mountaintops and beautiful black sand beaches.
