# Top Teachers in Breast Imaging

## OVERVIEW

This breast imaging course is designed for both the clinical radiologist who specializes in breast imaging and the radiologist who has general diagnostic clinical duties. A practical approach will be emphasized, providing an overview and update on clinically relevant topics in breast imaging. The course will highlight recent developments, with a strong focus on the use of multimodality imaging and intervention (mammography, ultrasound and MRI), as well as the growing use of tomosynthesis and contrast-enhanced mammography.

Course content will include didactic lectures, challenging cases sessions, and end-of-morning faculty panels for questions & discussion. Faculty will also be sharing insights into the upcoming updates and changes to BI-RADS, with the 6th Edition release in 2025 (pending availability).

There will be three informal “Brainstorming at Breakfast” sessions, during which one of the speakers will moderate attendee discussion regarding workplace practices. Registrants will also have the opportunity for an optional workstation preview of Dr. Sickles’ Challenging Cases from Sunday thru Wednesday; so they may compare their preliminary findings when Dr. Sickles reviews the cases during the Thursday sessions.

## OBJECTIVES

An attendee completing this course will be able to:

- Apply and utilize BI-RADS categories as appropriate, and be aware of changes and updates in the upcoming 6th edition;
- Develop a skillful & practical approach to performing & interpreting mammography & breast US;
- Understand & implement the growing use of MRI in the clinical setting;
- Understand the current use of tomosynthesis and contrast-enhanced-mammography in breast imaging.

## CONFERENCE LOCATION

The Big Island is the birthplace of King Kamehameha 1, the leader who united all of the Hawaiian islands by 1810 and is the anchor of the island chain. The home of Madame Pele, the fire goddess of volcanoes, Big Island Hawaii is the largest and youngest island in the Hawaiian chain and with the current volcanic activity, it is still growing. Hawaii's varying and dramatic climate zones generate a world of environments on one island, including lush rain forests, volcanic deserts, snow-capped mountaintops, and beautiful black sand beaches.

Located on the sunny and dry west side of the island along the beautiful Kohala Coast, the AAA

**Four Diamond Fairmont Orchid** offers a luxury oasis where the aloha spirit comes alive. Nestled along 32 oceanfront acres, guests can explore world-class beaches, underwater marine life in a private bay, or lounge under palm trees by the spacious pool. With its exceptional resort amenities, including the open-air Spa Without Walls, oceanfront fine dining, and unique Hawaiian cultural experiences, Fairmont Orchid is among the best luxury resorts in the Hawaiian islands.

A block of guestrooms has been reserved at the special UCSF conference rate starting at **\$515**, with a reduced group resort fee of \$30. You are urged to make your reservations early. The cut-off date is **Thursday, January 23, 2025**, or until the group room block is filled. After this date, rooms will be provided on a space-available basis only.
