Faculty Development Newsletter

June 7, 2023

Dear Faculty,

This is to alert you to several development opportunities with the AAMC (Association of American Medical Colleges). They do an excellent job and I encourage you to consider the leadership seminar listed here. Please let me know if you participate so we can do a “check in” for feedback afterwards. We are also listing an RSNA workshop. Note the application deadlines.

To see other opportunities at-a-glance throughout the year, I encourage you to take a look at our internal Academic Affairs database.

Sincerely,

Susan Wall, MD
Advisor to the Chair, Faculty Development

WORKSHOPS

**AAMC Mid-Career Minority Faculty Leadership Seminar** - leadership development program designed specifically for mid-career faculty who aspire to leadership positions in academic medicine. This unique blended-learning program takes a culturally responsive approach to address the specific needs of the participants including small group mentoring sessions and a CV review for career development planning.

- **Eligibility**: Individuals at the associate professor level who aspire to leadership positions in academic medicine.
- **Workshop Dates**: September 27-29, 2023

**RSNA Creating and Optimizing the Research Enterprise** - In this 1½-day workshop, held every other year, you will learn how to develop or expand research programs in radiology, radiation oncology or nuclear medicine. Through presentations, case studies and group discussions, you'll gain
valuable insights into how to generate the facilities, resources and services needed to conduct high-quality research in academic departments. Participants will also learn important techniques to encourage colleagues to explore innovative ideas through research.

- **Eligibility:** This workshop is intended for radiology chairs, vice chairs for research; researchers and research administrators from departments of radiology, radiation oncology and nuclear medicine; and radiology faculty/clinicians interested in learning more about radiology research.
- **Workshop Dates:** September 28-29, 2023
- **Application Deadline:** August 15, 2023
